PATIENT INSTRUCTIONS

Some lung function tests require certain preparations. If you are unsure of the preparation or have any question regarding your test procedure please contact the laboratory phone (07) 5597 7199.

If you are pregnant or may be, please notify scientific staff prior to commencing your test.

Please try to avoid taking your inhalers on the day of the test. However, take them if you feel it is necessary.

Do not smoke for 2 hours before the test if possible. Avoid big meals or drinks for 2 hours before the test.

Bronchial Provocation Test:

Contact the laboratory. You will need the name of any current inhaled drug or anti histamine tablet.

For further information please refer to www.lungfunction.com.au
